WORK EXPERIENCE

Junior Software Engineer

Sep 2024 - Present

BinduLogic LLC

- **Performance Optimization:** Converted a high-latency image processing route from Express (using opencv4nodejs) to Python Flask with python-opencv, drastically reducing image processing time from **38 seconds to 1 second**.
- Managed project timelines, reducing delivery times.

Software Engineer Intern

Nov 2023 - Feb 2024

BinduLogic LLC

- **Enhanced Security:** Developed and implemented a token-based authentication system, improving security measures across the company's software.
 - **Dynamic Form Development:** Contributed to building flexible forms using PostgreSQL and Prisma for better data management.
 - **Seamless User Authentication:** Created efficient phone and email verification with code-based login, ensuring a smooth user experience.
-

ACHIEVEMENT

- UGV intra-university programming contest champion (2022)
 - Participant of ICPC Asia Dhaka regional contest 2021 & 2022.
 - Participant of AUST IUPC 2022 and BUET IUPC 2022.
 - Problem-setter of UGV intra-university programming contest (2023)
-

PROBLEM SOLVE

- I have solved more than 700+ problems in online judge including Codeforces, LeetCode, HackerRank, etc.
-

EDUCATION

Bachelor of Science in Botany

Aug 2018 - Dec 2024

The National University of Bangladesh (Gov't BM College, Barisal)

- I've learned bioinformatics, cell biology, microbiology, biochemistry, etc.
-

ADDITIONAL INFORMATION

- **Programming Languages:** C/C++, JavaScript, Python (Basic)
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT
- **Databases & ORM:** PostgreSQL, MySQL, Prisma ORM
- **Tools:** Docker, Git, GitHub
- **Software Engineering:** Data Structures & Algorithms, Clean Code, Modular Architecture
